Subject: Who stole the OT V (Ned for OTs) pack from AOSH EU in 1983

Dear Robert,

I can confirm, that David Mayo had written new NOT's materials prior to the Robin Scott mission to the AOSH EU & AF.

Because at the Association for Applied Philosophy we used those David Mayo materials until we got Captain Bill's Excalibur materials. I recall very well how Robin Scott was arrested for industrial espionage, after he had been in Jernbanegade to obtain the NOT's materials. At that time we used the David Mayo materials.

Shortly afterwards we received the Church NOT's materials in an anonymous letter. We never used them on the courses.

Yours,

Ole G.

Chairman, Association for Applied Philosophy
